Introduction

This directory provides a list of Network Health Medicare Explore (HMO) in-network providers. To get detailed information about your health care coverage, please see your *Evidence of Coverage*.

You can use this directory to choose a personal doctor, known as a **primary care practitioner (PCP)**. Our plans recognize the following specialties as PCPs; family practice, general practice and internal medicine. We highly recommend you choose a PCP, because he or she can oversee all your medical care. The role of your PCP is to provide routine, preventive and follow-up care and to coordinate your care when you need to see a specialist or other provider. You can change your PCP for any reason, at any time. Also, you do not need a referral from your PCP to get services from a specialist.

The “in-network providers” listed in this directory have agreed to provide you with your health care services. You may go to any of our in-network providers listed in this directory. If you have been going to one in-network provider, you are not required to continue going to that same provider.

You must use in-network providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers, neither Medicare nor Network Health will be responsible for the costs. If you have a medical emergency, go to the nearest emergency room, hospital or urgent care center. You may get covered emergency medical care whenever you need it, anywhere in the United States. Emergency services are also covered when you are traveling outside of the United States or its territories. See your *Evidence of Coverage* for more information about this coverage.

After the emergency is over, you are entitled to follow-up care to ensure your condition remains stable. If your emergency care is provided by out-of-network providers, we will try to arrange for in-network providers to take over your care as soon as your medical condition and circumstances allow.

If you do receive services from an out-of-network provider and they bill you directly, please do not pay this bill. Instead, send it to Network Health for processing and determination of enrollee liability.
