How to Use Find a Doctor/Find a Pharmacy

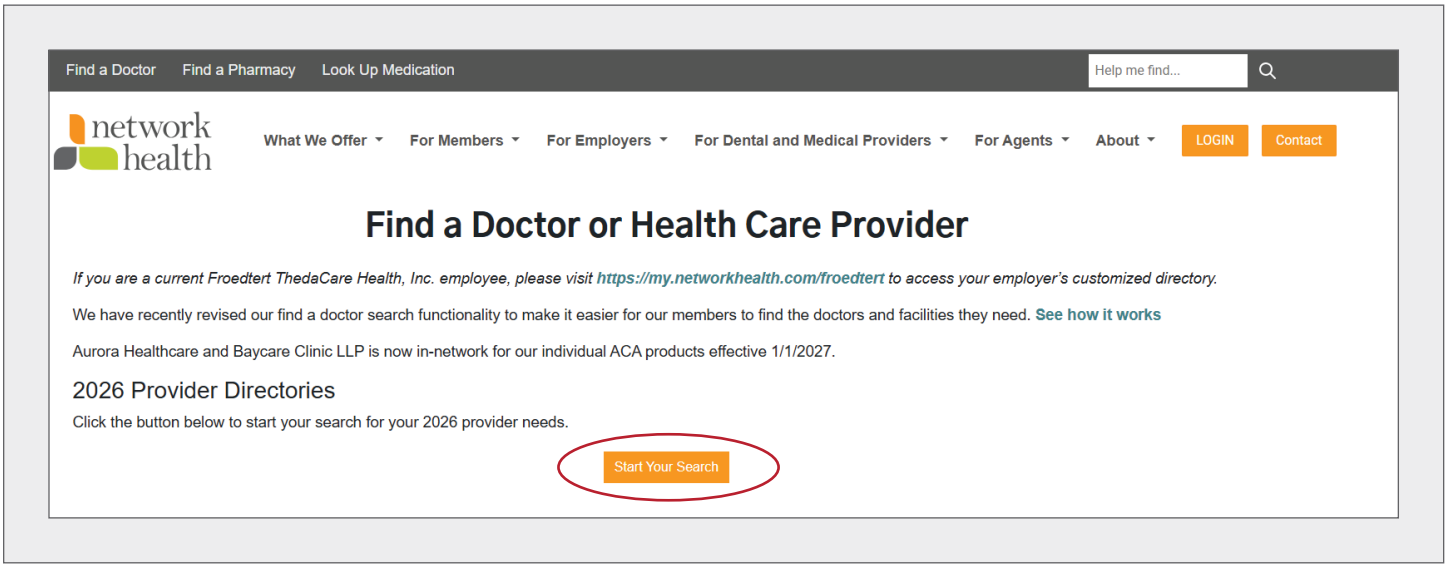

Use Network Health's updated **Find a Doctor** and **Find a Pharmacy** search page to find a personal doctor, hospital, clinic or pharmacy near you.

Search for Doctors or Pharmacies in Our Service Area

1. Sign in at **login.networkhealth.com**.
    - If you do not have a Network Health account, click on the above link to create one, or go to step #3.
2. Click **Find a Doctor** or **Find a Pharmacy** button at the top of the page.

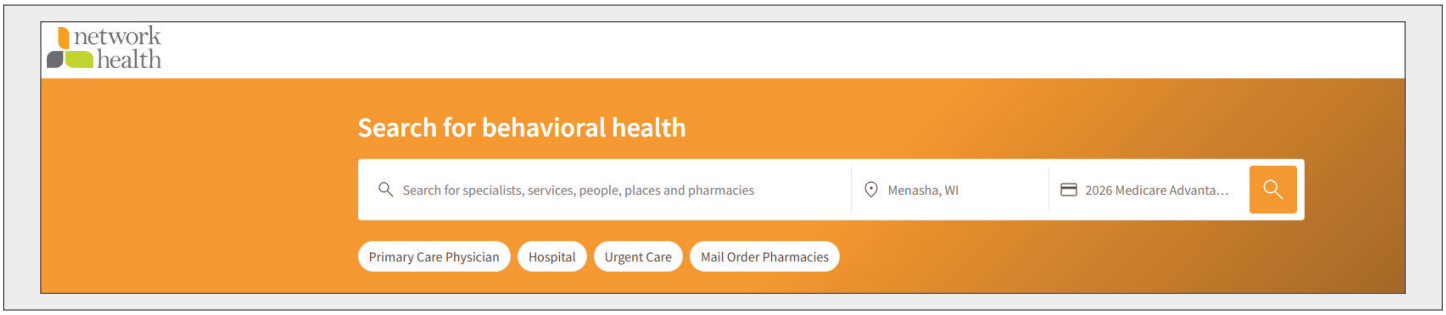

3. Click on the **Start Your Search** button.

4. You may have to enter your location and select your health plan type.
    - If you did not log in to your account, you will have to select your location and your health plan type.

5. Enter your search options in the search tool to either search by:
    - Doctors by Name
    - Doctors by Specialty
    - Places or Pharmacies by Name
    - Places or Pharmacies by Type, Services
    - Diagnosis

6. Type what you are looking for in the search field. (e.g., doctor name, facility name, specialty, pharmacy, diagnosis, etc.)
    - As you type, a list of quick search results will appear below the search field. You can click on one of those results for more information, or click on the **search icon** to get a list of results.

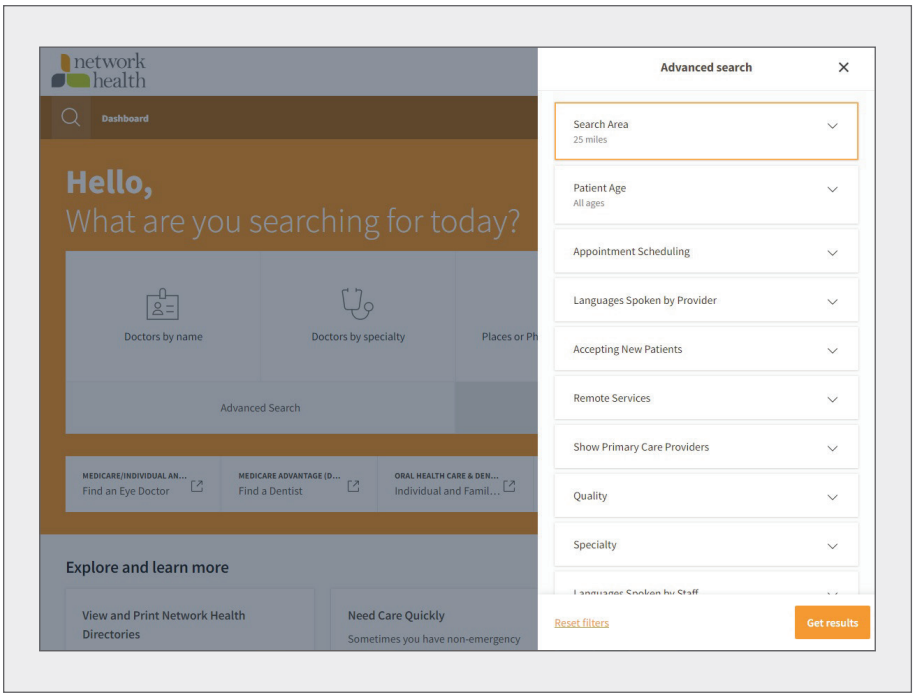

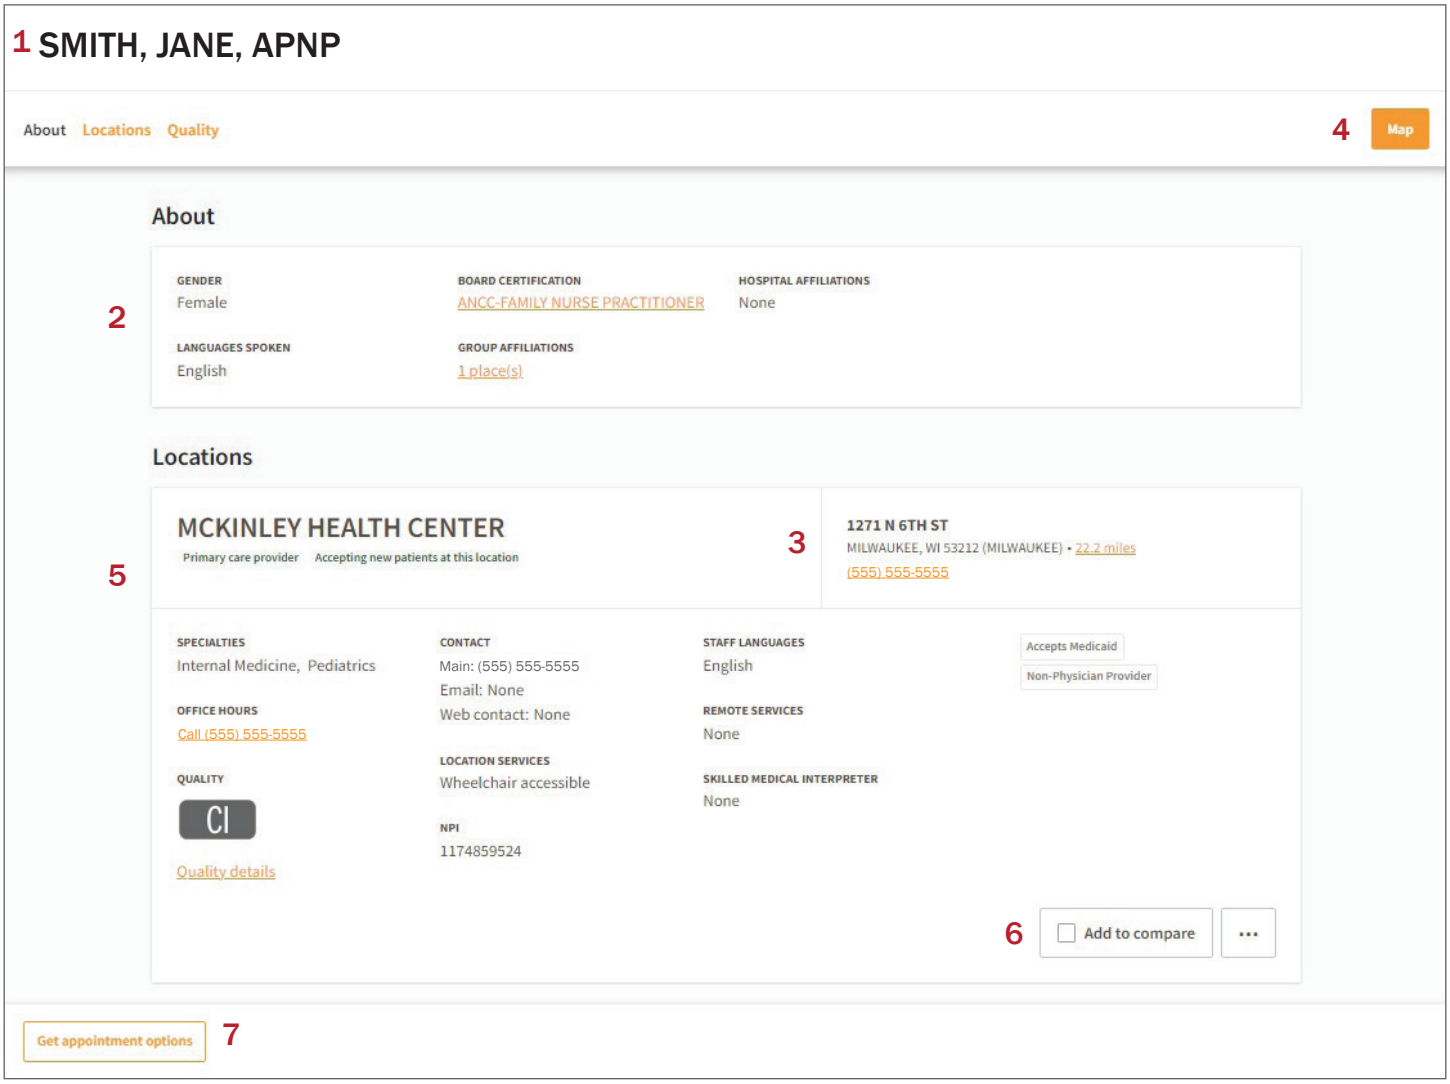

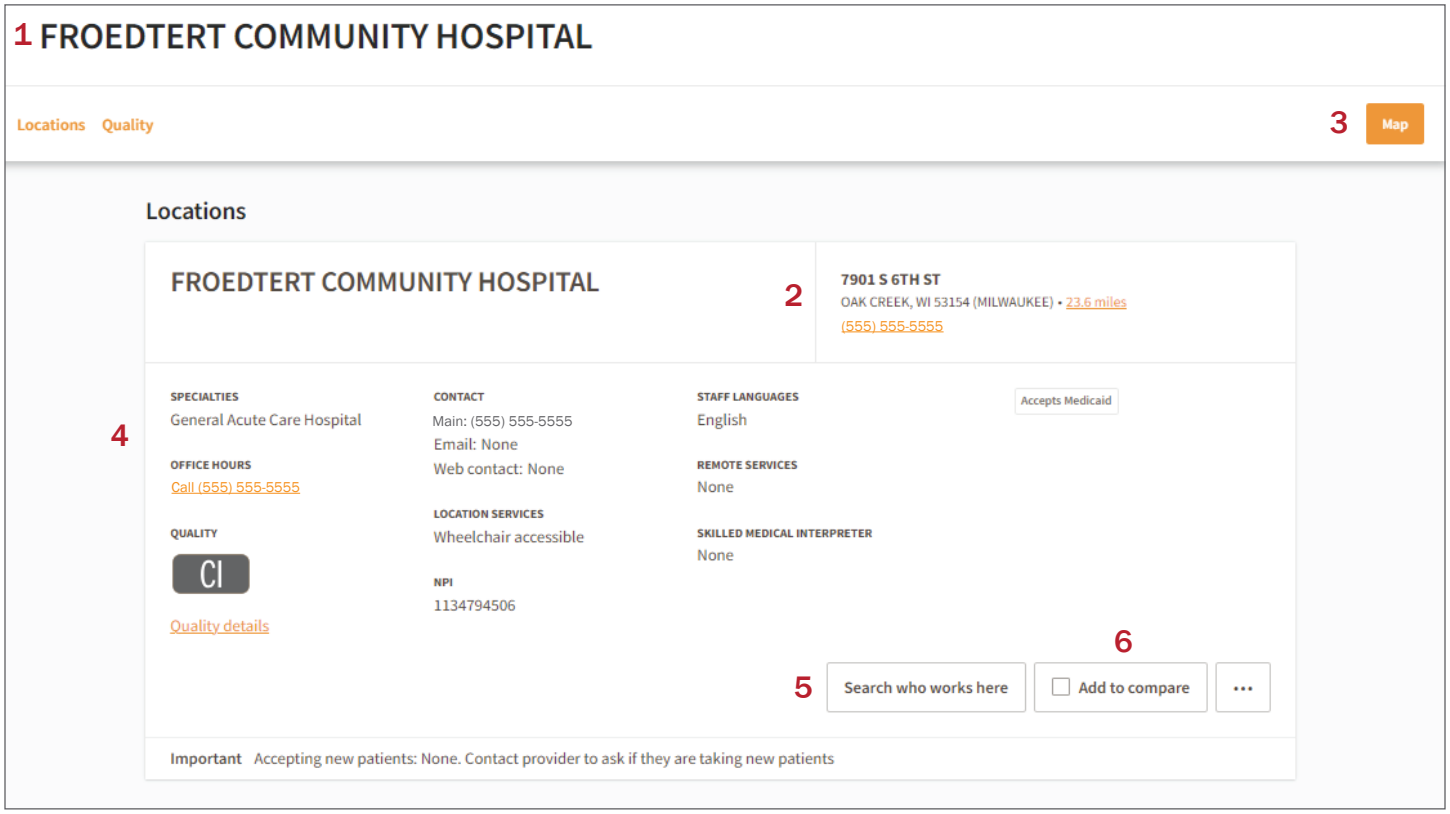

Diagram of a Doctor Search Result

1. Doctor name
2. Quick reference details
3. Address and contact information
4. Location and map of facility
