When requesting authorization, please provide the CPT, HCPCS and/or revenue code appropriate for the planned service.

Whether Network Health is the primary, secondary or tertiary insurer, authorization procedures must be followed to receive coverage.

All services must be medically necessary. Certain services are directly excluded from coverage under the various coverage documents (e.g., bariatric surgery, mental health transitional care and acupuncture, etc.) and will be reviewed when a claim is submitted to determine benefit availability and claim payment.

Authorization is not a guarantee of payment. Claims will be denied if they do not meet with all the terms and provisions of the effective coverage document. Actual benefits will be determined when the claim or bill is submitted to Network Health.

Network Health reserves the right to review all claims for medical necessity.
