## Complementary and Alternative Medicine

---

### *Values*

Accountability • Integrity • Service Excellence • Innovation • Collaboration

---

#### **Abstract Purpose:**

The purpose of this policy is to provide guidance for Network Health Plan/Network Health Insurance Corporation/Network Health Administrative Services, LLC's (NHP/NHIC/NHAS) utilization management team in rendering medical necessity decisions related to the use of complementary and alternative medicine.

#### **Policy Detail:**

Refer to the appropriate Certificate of Coverage, Evidence of Coverage, Summary Plan Description, or Individual and Family Policy because employer group and government contracts may vary. Network Health Plan/Network Health Insurance Corporation/Network Health Administrative Services LLC follows Medicare's National/Local (Wisconsin area) Coverage Determinations for its Medicare Advantage membership. This policy applies to NHP/NHAS commercial lines of business.

- I. Description
  - A. Complementary and Alternative Medicine is a broad category applied to medical products and practices that are not part of standard medical care. These products and practices are used along with, or in place of, standard medical care but are not considered by themselves to be standard treatment. NHP/NHIC/NHAS may consider some complementary or alternative medicine/techniques to be medically necessary when the safety and effectiveness is supported through current peer-reviewed medical literature.
- II. Medical Indications
  - A. The following are some complementary or alternative medicine interventions that NHP/NHIC/NHAS may consider medically necessary when coverage criteria and/or medical policy indications have been met:
    1. Acupuncture
    2. Biofeedback
  - B. Coverage of Chiropractic services extends only to treatment by means of manual manipulation of the spine to correct subluxation.
    1. NHP/NHAS utilizes MCG 28<sup>th</sup> edition Ambulatory Care Guidelines Spinal Manipulation Therapy (SMT), Chiropractic and Other ACG: A-0331 (AC) for medical necessity determinations for chiropractic services.
- III. Coverage
  - A. Chiropractic services are a covered benefit and may be considered medically

necessary when meeting the coverage indication(s) and MCG criteria outlined above.

- B. NHP/NHAS follows n03717 Medical Policy- Acupuncture for coverage determinations regarding acupuncture services for commercial members.
- C. NHIC follows CMS National Coverage Determinations (NCD) and Local Coverage Determinations (LCD) for application to its Medicare Advantage membership. Local Coverage Article A57889 is referenced for chiropractic services.

IV. Limitations/Exclusions

- A. NHP/NHIC/NHAS considers Nutraceuticals: An injection contained of a blend of vitamins, minerals and various other products (such as stem cells), sometimes called nutra-pharmaceutical blend, to be an experimental treatment.
- B. Maintenance therapy is not considered to be reasonable and necessary. Therapy is considered maintenance when clinical improvement cannot be expected from continuous ongoing care and the chiropractic becomes supportive instead of corrective.
- C. Traction, massage therapy, and ultrasound when administered as part of chiropractic treatment, are considered not medically necessary.
- D. NHP/NHIC/NHAS may consider the use of electrical stimulation in a clinical setting to be experimental and investigational.
- E. H-WAVE electrical stimulation devices or Interferential stimulation (IFT) are considered experimental/investigational or unproven for the treatment of any condition including, but not limited to; relief of pain associated with soft tissue injury, musculoskeletal disorders, or to enhance wound or fracture healing.
- F. NHP/NHIC/NHAS considers complimentary or alternative medicine devices, interventions, pharmaceuticals, or services not listed below to be experimental/investigational or unproven.

## Disclaimer:

Contract language as well as state and federal laws take precedence over any medical policy. Network Health coverage documents (i.e. Certificate of Coverage, Evidence of Coverage, Summary Plan Descriptions) outline contractual terms of the applicable benefit plan for each line of business and will be considered first in determining eligibility. Not all Network Health coverage documents are the same. Coverage may differ. Our Medicare membership follows applicable Centers for Medicare and Medicaid Services (CMS) coverage statements including National Coverage Determinations (NCD) and Local Coverage Determinations (LCD). Please refer to the CMS website at [www.cms.gov](http://www.cms.gov).

Network Health reserves the right to review and update our medical policies on occasion as medical technologies are constantly evolving. The documentation of any brand name of a test, product and/or procedure in a medical policy is in no way an endorsement of that product; it is for reference only. Network Health’s medical policies are for guidance and not intended to prevent the judgment of the reviewing medical director(s) nor dictate to health care providers how to practice medicine.
