The information listed in this directory was current at the time of printing, however, changes occur frequently. For this reason, please verify that you use a Network Health contracted practitioner each time you receive services or call for an appointment. To ensure you are choosing an in-network provider when choosing a facility location, please note that only the providers listed under a particular facility are in-network. Not all providers at your selected facility may be participating in-network providers, therefore, ensure the provider you are looking for is listed in this directory, as you may be responsible for the cost of services provided by facility where the provider is not listed.

You may view Network Health's directory information online at networkhealth.com. Online versions of the directories are updated monthly.

For the most current information on Network Health's practitioners, please call our member experience department at 800-826-0940 or 920-720-1300 if you have a policy through an employer group or 855-275-1400 or 920-720-1400 if you have an individual and family policy. If you find an error in this directory, please call us. Network Health offers TDD/TTY services for deaf, hard of hearing or speech-impaired individuals. Anyone needing these services should call 800-947-3529. Bilingual language assistance or translation services are also available by calling our member experience department. A member experience representative will assist with locating health care practitioners accepting new patients, finding health care practitioners new to our network and identifying those who recently left Network Health.
