How We’re Different

We Speak Your Language

When you call Network Health, we don’t bombard you with health insurance jargon. We talk like people, not insurance dictionaries, and we’re ending the jargon.

Wisconsin is Home

We’re not a nationwide health plan, and we like it that way. We’re a locally owned, Wisconsin-based company. We live and work in the communities we serve.

Focused on You

Our plans give you access to health care professionals who can quickly answer your questions and connect you with programs to better manage your health. If you have a health condition, our nurse care managers can work with you to develop a customized care plan. They can help coordinate care with doctors, explain medical instructions, provide guidance on care and more.

Here’s what our employees say about the member experience.

**WHAT’S THAT? SUBSIDY**

A subsidy is financial help provided by the government to help people afford health insurance. There are two types of subsidies—tax credits and cost-sharing reductions. A tax credit helps make your monthly premium payments lower. A cost-sharing reduction lowers the amount you pay for health insurance deductibles, copayments and coinsurance. If you qualify for a cost-sharing reduction, your health insurance may cover some or all of your out-of-pocket cost. As you compare plans, remember that you may qualify for a subsidy from the government.
