## How do I know if my exam is a routine vision exam or a medical eye exam?

### Routine Vision Exam

This type of eye exam tests for eye diseases and provides prescriptions for eyeglasses and/or contacts. A refraction test and/or dilation is covered when they're performed as part of this exam, as recommended by your doctor.

#### When do I need a routine eye exam?

- Your vision is blurry
- You have trouble reading up close
- Your eyes are uncomfortable or vision is inconsistent
- Annually, even if you don't experience issues

#### Is this type of exam covered by my Network Health Medicare Advantage plan?

**Yes.** Depending on your plan, you are covered for a routine eye exam with a \$10 copayment or up to \$40 reimbursement if you visit an out-of-network provider for this service. The Network Health Anywhere, Network Health Choice, Network Health Armor and Network Health Bravo plans cover an annual routine vision exam for \$0 copayment. You can find an EyeMed provider by visiting [networkhealth.com/medicare/extra-benefits](https://networkhealth.com/medicare/extra-benefits) and clicking **Find a Vision Provider**.

Note: The EyeMed network of providers is different from our Network Health medical vision providers.

### Did you know these health conditions may be identified through a vision exam?

- Diabetes
- High blood pressure
- High cholesterol
- Multiple sclerosis
- Lupus
- Rheumatoid arthritis

If you have one of these conditions, schedule your annual routine vision exam.

### Medical Eye Exam\*

Performed to evaluate abnormalities found during your routine eye exam and to monitor existing medical conditions. A refraction test is not covered when performed as part of this exam. If you have questions about the type of exam you receive, contact your provider.

#### Why might I need a medical exam instead of a routine exam?

- You have cataracts
- You have diabetes
- You have glaucoma
- You have macular degeneration

#### Is this type of exam covered by my Network Health Medicare Advantage Plan?

**Yes.** This is considered a Medicare-covered exam and a copayment will apply. To find a Network Health medical vision provider, visit [networkhealth.com/find-a-doctor](https://networkhealth.com/find-a-doctor), select your plan type and search for **Optometry** or **Ophthalmology**.
