What is Pick Your Perks?

The Pick Your Perks reimbursement program allows you to choose the supplemental benefits that are most important to you. Simply pay for your eligible services and submit the required documentation to receive reimbursement.

You have access to your full Pick Your Perks benefit amount beginning the day your Network Health plan coverage starts. You can use the program for one, or many, of the eligible supplemental benefits. No prior authorization is required and you don't need to notify the plan before you receive services. With Pick Your Perks, you have the freedom to choose the benefits you value most.

What Does Pick Your Perks Cover?

Pick Your Perks can be used to cover your eligible supplemental benefit expenses that are received or purchased at any traditional or online retailer within the United States. You cannot use Pick Your Perks to reimburse expenses for any other person, such as a spouse or family member. The table on the next page details which expenses are eligible for Pick Your Perks reimbursement and the documentation needed for each.

When Do I Need to Submit For Reimbursement?

Your claim must be received by Employee Benefits Corporation (EBC) within 120 days of the date of service or item's purchase to be accepted, so we recommend you submit your claim for reimbursement as soon as possible to ensure it's received on time. If you submit for reimbursement online and request a direct deposit payment, you could receive your payment up to **three times faster** than mailing your claim and requesting a check payment. You may submit as many times as you need to. Note, your service must be rendered however, does not need to be paid in full to submit your claim for reimbursement.
